Prescription List for Final Expense Application

For use with Final Expense applications on Insureds ages 45 and up

Disclosures:

- 1. This list is not all inclusive and is intended as a guide only. All cases subject to review.
- 2. This list only identifies some uses for the medications. There may be other uses that could positively or negatively impact the final classification of the case being reviewed. We only list the uses we are concerned about. For example, we don't list elevated blood pressure because it is acceptable on the final expense application.
- 3. The action identified in the Decision column is based on the last use of the medication unless otherwise indicated.
- 4. The action identified in the Decision column is based on the medication in question being the only medication that is impacting the final decision. Multiple medications may negatively impact the final decision.
- 5. The action identified in the Decision column is based on the medication in question being used for the reason indicated in the "If taking for this reason" column. Using the medication for other reasons could positively or negatively impact the decision.
- 6. If a medication is being taken for a reason other than what is listed, please document the medication and reason taking on the Supplemental Application.

There are 2 lists of medications below. The first list indicates the medications that are declined if taking for the reason indicated. The second list indicates the acceptable medications- these may be Graded, Standard or Preferred.

Medications	If taking for this reason	Decision
Abacavir	AIDS/HIV	Decline
Abacavir-Lamivudine	AIDS/HIV	Decline
Abacavir-Lamivudine-	AIDS/HIV	Decline
Zidovudine		
Acetylcysteine	Cystic Fibrosis	Decline
Amikacin	Cystic Fibrosis	Decline
Aptivus	AIDS/HIV	Decline
Aricept	Alzheimers, Dementia, Memory	Decline
	Loss	
Atazanavir	AIDS/HIV	Decline
Atripla	AIDS/HIV	Decline
Azathioprine	Organ Transplant	Decline
Aztreonam Lysine	Cystic Fibrosis	Decline
Cayston	Cystic Fibrosis	Decline
CellCept	Organ Transplant	Decline
Ceflazidime	Cystic Fibrosis	Decline
Ceflazidime-Dextrose	Cystic Fibrosis	Decline
Cognex	Alzheimers, Dementia, Memory	Decline
	Loss	
Combivir	AIDS/HIV	Decline
Complera	AIDS/HIV	Decline
Crixivan	AIDS/HIV	Decline
Cyclosporine	Organ Transplant	Decline
Darunavir	AIDS/HIV	Decline
Delavirdine	AIDS/HIV	Decline
Didanosine	AIDS/HIV	Decline
Donepezil	Alzheimers, Dementia, Memory	Decline
	Loss	
Dornase Alfa	Cystic Fibrosis	Decline
Droxia	Sickle Cell Anemia	Decline
Edurant	AIDS/HIV	Decline
Efavirenz	AIDS/HIV	Decline
Efavirenz-Emtricitabin-	AIDS/HIV	Decline
Tenofav
